

# GPT4YOU

**Your AI. Your rules.**

**Want to use AI cost-effectively while remaining fully compliant with data protection laws? GPT4YOU makes it possible.**

Say goodbye to costly subscriptions – with GPT4YOU, you only pay for what you truly use. Benefit from flexible AI integration that grows with your business – with no hidden costs.

## Key benefits at a glance

### **GDPR compliance**

Our solution is fully GDPR-compliant, allowing you to use AI applications without legal concerns.

### **Privacy**

GPT4YOU stores chats only in the local cache and requires no account – your data remains entirely your own.

### **Cost efficiency through API billing**

Rather than fixed per-user subscriptions, you only pay based on token usage – ensuring a transparent cost structure.

## Flexible Hosting-Options

GPT4YOU supports multiple AI models and can be hosted either locally or in the cloud, giving you the freedom to use a model completely on-prem.

## Your favourite GPT version

Use the latest generation of AI technology for in-depth analyses and precise results.

## Customisable user interface

The GPT4YOU user interface (UI) can be completely customised to your requirements and further developed independently by your team.

## High level of customisability

GPT4YOU allows you to store data in a vector database. So the large language model can be tailored with your proprietary knowledge. Customised to your company's individual AI strategy.
